PROFILE

Computer Science graduate with a university-supervised cooperative training experience in the IT department at Saudi Electricity Company. Gained hands-on exposure to technical support, system troubleshooting, and IT operations within a corporate environment. Demonstrates strong problem-solving skills and adaptability, with the ability to work effectively within a team. Seeking an entry-level IT or graduate development opportunity to apply technical knowledge and contribute to organizational efficiency

EDUCATION

University of Tabuk, Tabuk, Saudi Arabia

Jul 2021 — Jan 2026

Bachelor of Science in Computer Science

Relevant course work: Data Structures, Database Management, Network Security, and Software Engineering Developed technical and analytical expertise through various academic projects, including an AI-based graduation project (YAQZA).

PROFESSIONAL EXPERIENCE

Information Technology Trainee, Saudi Electricity Company

Sept 2025 — Nov 2025

- Delivered first-line technical support to 50+ end-users, resolving hardware, software, and connectivity issues within a corporate environment.
- Assisted in diagnosing and troubleshooting system, network, and application problems.
- Supported IT operations by handling user requests, system access, and basic configurations.
- Documented incidents, solutions, and procedures to ensure accurate technical records.
- Collaborated with IT team members to maintain system reliability and service continuity.

PROJECTS

GRADUATION PROJECT – YAQZA – AI-Based Personal Safety App

- Developed an AI-driven safety application designed to enhance personal security in Saudi Arabia by analyzing real-time crime data and providing location-based updates.
- Designed an interactive color-coded mapping system to visualize regional risk levels and implemented automated emergency notification features.
- Tech Stack: Flutter (Mobile Dev), Flask (Backend), PostgreSQL (Database), Mapbox API, and Python for AI-driven data analysis.

COURSES

Fundamentals of Artificial Intelligence , SDAIA
Data Fundamentals, IBM

Computer Course, Centre for Success for Training
SQL 103, Satr

Skills

Hard Skills

Technical Support: Troubleshooting, OS Deployment, Microsoft 365 Administration.

Data analysis: Excel, Database, Power BI.

Programming Languages: Java, Python, SQL.

Soft Skills

Problem Solving

Adaptability

Self-learning
